

Sample Project Brief

Purpose

A fictional brief for testing IT project attachments.
Use this document to try the preview and download controls.

Project scope

Build a responsive workspace for project updates, assigned tasks, support tickets, and shared documents.

Example deliverables

1. Dashboard with project totals and upcoming deadlines.
2. Project details with progress, tasks, and file attachments.
3. Ticket list with priority and status filters.
4. Responsive layouts and accessible keyboard controls.

Acceptance criteria

Project rows open the correct details.
Documents can be previewed and downloaded.
Empty states display when no records are available.
Layouts remain readable on desktop and mobile.

Sample schedule

Week 1: requirements and design review.
Weeks 2-3: implementation and internal QA.
Week 4: acceptance review and handover.
