

Sample QA Checklist

About this checklist

Fictional QA examples for the IT demo workspace.
These are examples; no actual test results are asserted.

Dashboard checks

- ☐ Project totals agree with the project list.
- ☐ Work and attention lists do not duplicate the same task.
- ☐ Overdue and critical items are clearly identified.

Project and document checks

- ☐ Project rows open the selected project.
- ☐ Both sample PDFs open in the document preview.
- ☐ Downloaded files open successfully in a PDF reader.
- ☐ Closing the preview returns focus to the project page.

Layout and accessibility checks

- ☐ Desktop columns stack on smaller screens.
- ☐ Text remains readable with the current theme.
- ☐ Buttons can be reached using the keyboard.
- ☐ Empty states are clear when a section has no items.

Example sign-off fields

Tester: Demo QA Team
Review status: Pending sample review
Notes: Replace this document with real project QA evidence.
